

# **Project Engineer**

Fusion for Energy (F4E) is hiring a **Project Engineer**, who will play a key role in supporting fusion, the power of the Sun, into a future sustainable energy source.

Reference	Grade	Location	Closing date
F4E/TA/AD6/2025/0292	Temporary Agent AD6	Barcelona, Spain <sup>i</sup>	26/11/2025 - 11:59 (CET)

### Is this job for you?

If you want to make a difference to the future of sustainable energy and would like to work on a multi-billion euro first-of-a-kind development project, we have the perfect opportunity for you! Apply to become Project Engineer within our Fusion Technologies & Engineering Department (FUTED) of 'Fusion for Energy'.

The Project Engineer (PE) plays a pivotal role in overseeing all phases of a project, from procurement preparation to implementation and qualification, manufacturing, and acceptance activities, including closure. Collaborating closely with the Project Manager (PjM), the Lead Engineer (LE) and the Technical Engineer (TE), the PE ensures that contractual requirements are well implemented and met and that project strategies align with schedules and scopes of work.

Fusion for Energy (F4E) is managing Europe's contribution to ITER, the biggest fusion experiment, and is contributing to several other major projects in the same domain. The fusion landscape is changing fast and F4E as a key European player has just entered in a new organisation.

## Why F4E?

Fusion for Energy (F4E) is the European Union's organisation for ITER and the Development of Fusion Energy. We are working with industry and laboratories to deliver cutting-edge components to the ITER international fusion energy project. In parallel, we are working on other major projects in the same domain, including the JT-60SA experiment with Japan, a new material testing facility (DONES), and, in the long-term, preparing for the next generation of fusion devices.

F4E is headquartered in Barcelona with offices in Cadarache (France) and Garching (Germany). To deliver the European contribution to ITER, face the fusion challenges, and manage more than 400 professionals, F4E is moving towards a more diverse, flexible, and result-oriented organisation. Its renewed vision is focussed on (1) successful delivery of projects, (2) developing fusion talent and knowledge base for the development of commercially viable fusion power plants in Europe and (3) paving the way for a transition from research to a competitive European industrial fusion sector.

#### We are committed to Diversity & Inclusion

Fusion for Energy is an equal opportunities employer and takes care to avoid any form of discrimination. As part of its commitment to diversity, gender equality and geographical distribution, F4E strongly encourages applications from female candidates and applies a policy of equal opportunities. It does not discriminate against anyone on grounds of gender, race, colour, ethnic or social origin, genetic features, religion or belief, political or any other opinion, membership of a national minority, property, birth, disability or sexual orientation. Fusion for Energy offers measures to reconcile professional and private life and will provide reasonable adjustments at the workplace for persons with disabilities.

#### Your key areas of impact

The FUTED Department contributes to F4E programmes by providing technical solutions, resources, services, expertise in domains of engineering and fusion technologies. It is responsible for developing and maintaining critical technical knowledge as well as developing and implementing engineering processes, guaranteeing the technical quality, coherency, consistency of the systems, acting as design authority and developing a fusion technologies development programme. The Department is composed of around 110 staff.

As a member of the Fusion Technologies and Engineering Department, the Project Engineer will be assigned the role of Project Engineer (PE) and will report to the Head of the Project Engineering, CAD & Data Management Unit and will work directly under their supervision.

The successful candidate will perform, amongst other tasks:

- **Technical Oversight & Coordination:** Oversee the technical scope within a work package and collaborate with LE and TE to align all project lifecycle phases under F4E's responsibility—covering (but not limited to) design, analysis, qualification, manufacturing, metrology, testing, assembly, commissioning, and resource management under the PjM's guidance.
- Strategic Planning, Procurement & Contract Management: Define procurement strategies with the Procurement Officer, prepare technical requirements for Procurement Arrangements (PAs) and contracts, and manage contract tenders including drafting task descriptions, develop budgets, work programmes, strategic schedules for relevant work packages, and follow up on work packages, while liaising within F4E and with external stakeholders.
- Implementation & Delivery: Manage the execution and monitoring of work packages to ensure deliverables are met in line with project objectives and timelines.
- Project Planning & Control: Together with the Project Performance Management Officer (PPMO) and Quality Assurance (QA) Officer, ensure effective performance analysis, planning, detailed scheduling, quality & safety, cost management and risk management of the project.
- Change Management: Proactively manage changes in project scope, related documentation and requests, fostering motivation and trust through effective communication with team members, stakeholders, and providers.
- Stakeholder Management: Identify, communicate, engage, resolve conflict and coordinate team members, managers, clients and supplier, to ensure smooth project execution and deliver value to all parties involved.

#### What can we offer you?

#### Life in Barcelona

Barcelona offers professionals and families a high quality of life. It has a year-round average temperature of 18°C and complements its cosmopolitan lifestyle and vibrant cultural life with the nature of the Mediterranean coastline and the Pyrenees.

The city is strategically located between the sea and the mountains, and it is served by an international airport. Barcelona is a cosmopolitan city with Roman remains, medieval quarters and the most beautiful examples of 20th century modernism and avant-garde architecture.

# Salary and benefits

As an indication, the basic monthly salary for grade AD6 (step 1) is currently € 6.758,53. In addition to the basic salary, staff members may be entitled to various allowances, in particular a household allowance, expatriation allowance (16% of basic salary and household allowance), dependent child allowance and education allowance. The salaries of temporary agents are subject to a community tax deducted at source and are exempt from national taxation.

Where you would need to relocate, you would normally benefit from relocation and removal reimbursements. F4E has agreements with a wide range of international schools to support access to schooling for the dependent children of its staff.

## Work-life balance

F4E enables staff members to reconcile family and professional life by offering flexible work arrangements and teleworking.

F4E staff members enjoy a basic entitlement of 24 days of annual leave as well as +/- 18 statutory public holidays per annum. Additional leave days may be granted for age and distance from the place of origin.

How will we evaluate your application?

# A Eligibility Criteria - you can apply if:

#### A1. You fulfil five general requirements

- 1. Being a citizen of one of the Member States of the European Union or of a third state fully associated with the Euratom fusion programme.
- 2. Enjoying your full rights as a citizen ii.
- 3. Have fulfilled the obligations imposed on you by the laws of your home country concerning military service.
- 4. Producing the appropriate character references as to your suitability for the performance of your duties.
- 5. Being physically fit to perform your dutiesiii.

## A2. Your Education & Experience are in line with our requirements iv

On the closing date for registration, the candidate must have:

A level of education which corresponds to completed university studies of at least three years attested by a diploma and, after having obtained the university degree, at least 3 years of proven professional experience.

## A3. Your Language Skills are developed

You must produce evidence of excellent written and spoken communications in English and of a satisfactory knowledge of another official language of the European Union.

# B Your Qualifications and Experience

# B1. It is essential that your professional history cover:

- University degree in Engineering: Nuclear, Mechanical, Industrial, Material, or in Physics, or an equivalent technical discipline;
- Proven professional experience of at least 3 years in operational preparation, management and follow up of contract implementation of value larger than 5 million euro;
- Proven professional experience of at least 3 years managing contracts with a minimum number of 5 different suppliers;
- Proven professional experience of at least 3 years managing multi-year contracts, with a minimum duration of 4 years;
- Proven professional experience negotiating contract amendments with a minimum value of 250,000€;
- Proven experience working under a Project Manager guidance, in collaboration with a team of 5+ members, managing at least 3 work streams simultaneously;
- Proven experience working across minimum 4 of the specified project lifecycle phases (design, analysis, qualification, manufacturing, metrology, testing, assembly, commissioning).

## **B2.** Advantageous Selection Criteria

In addition to the above, the following criteria will be considered:

- Proven experience in contract management for design or manufacturing of ITER, fusion, fission or "Big Science" related components, including integration and interface management of complex systems;
- Proven experience working as a technical specialist, related to the fields as above: ITER, fusion, fission or "Big Science";
- Proven experience in contract management for the design or manufacturing of nuclear components;
- Proven experience with procurement procedures under the EU General Financial Regulation or F4E's Financial Regulations for complex technical systems;
- Understanding of quality management systems, safety protocols in technical environments, and experience with international collaboration projects;
- Demonstrated experience in regulated or quality-critical environments (ISO standards, nuclear – ASME or RCC codes, aerospace, or similar);
- PMP, PRINCE2 or equivalent project management certification;

Experience with international contracts or multi-national procurement.

# **B3.** Competencies

The following competences will also be assessed:

- Proven ability to coordinate complex tasks and manage multiple tasks to deliver high-quality results under pressure;
- Excellent written communication skills with the ability to synthesize, analyze and present materials effectively and tailored to different audiences;
- Strong interpersonal skills and track record of working effectively and building effective trustbased relations at all levels of the organisation and in a multicultural environment;
- High degree of discretion in dealing with internal and external actors and in handling confidential and sensitive information;
- Strong organisational skills for managing multiple work streams simultaneously.

# **Submission of applications**

The online application process starts upon clicking "CLICK TO APPLY" next to a vacancy of your interest on the Open Positions page: <a href="https://fusionforenergy.europa.eu/vacancies/">https://fusionforenergy.europa.eu/vacancies/</a>

You must register your application online through the F4E E-recruitment platform by creating a valid F4E user account and submitting the documents mentioned below. We appreciate any feedback you may have regarding your user experience: hr-selections@f4e.europa.eu

Please note that the online e-recruitment application platform is the <u>only</u> acceptable means of submitting/sending in job applications. You are responsible for keeping your e-mail addresses and personal details up to date in your profile in F4E online application tool.

The mandatory fields in the profile marked with an asterisk should be duly filled in and you are requested to submit the following two documents:

- A detailed Europass Curriculum Vitae in **English** (can be obtained at the following address: <a href="http://europass.cedefop.europa.eu/en/documents/curriculum-vitae">http://europass.cedefop.europa.eu/en/documents/curriculum-vitae</a>;
- A Motivation Letter of 2 pages maximum in English.

Applications must be complete and validly submitted by the closing date for submission of applications

No later than 26/11/2025 at 11h59 Barcelona time.

In case you encounter technical problems when trying to submit your application via the e-Recruitment tool, please take a screenshot and send it to us via the <u>"Contact Us" form</u>. It is your responsibility to inform F4E about any technical problem immediately, within the deadline mentioned above.

Please, do not send any supporting documents (i.e.: copies of your ID-card, educational certificates, evidence of previous professional experience etc.) with your application at this stage if not specified in the Vacancy Notice.

After submitting your application, you will receive an acknowledgement of receipt notification. Please note that email correspondence from F4E will be sent out via our e-recruitment system. We therefore ask you to regularly monitor your email inbox and spam. Emails will have the sender address "@f4e-jobs.gestmax.eu".

#### **Conditions of employment**

Successful candidates will be placed on a Reserve List, and one of the candidates thereon may be offered this position.

For more information on the selection process of Temporary Agents and on the contractual and working conditions, please, refer to the "Guide for applicants" published on the F4E website along with this Vacancy Notice and the Conditions of employment of Other Servants of the European Communities.

# How is your data protected?

'Fusion for Energy' as the body responsible for organizing the selection process, will ensure that your personal data are processed as required by Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data, and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC Text with EEA relevance. This applies in particular to the confidentiality and security of such data. Personal data shall be processed solely for the purpose of the selection procedure.

In order to update your CV and/or Motivation Letter and rectify any incorrect or inaccurate data, please send an email to us via the <u>"Contact Us" form</u> before the deadline for submission of the applications elapses. After the deadline for applications has elapsed, this right will be limited to the rectification of identification details and contact information only.

Should you have any query concerning the processing of your personal data, you shall send them to the following address: <a href="mailto:HR-DataProtection@f4e.europa.eu">HR-DataProtection@f4e.europa.eu</a>

Vacancy published on F4E website on 28/10/2025.

 $<sup>^{\</sup>mathrm{i}}$  Given the needs of the organisation, the candidate may be offered a position at any of the other F4E working places.

ii Prior to any appointment, the successful candidate will be asked to provide a certificate issued by the competent authority attesting the absence of any criminal record.

iii Before their appointment, the candidate shall be medically examined in line with requirement of Article 12(2) (d) of the Conditions of employment of other servants of the European Communities.

iv Only study titles that have been awarded by the Members of the Joint Undertaking or that are subject to the equivalence certificates issued by the authorities in the said Member States shall be taken into consideration.
